DIRECTOR'S WELCOME

TELMEN LTD, a name well known in the field of M&E contracting in Cyprus and connected with expertise to provide services at the highest standards. Over the years, we have successfully executed many large-scale significant projects, which inarguably placed the company among the leading M&E contractors in Cyprus and one of the few providing both Mechanical and Electrical services

Throughout the company's history, there has been a commitment of keeping up with the market changes, maintaining a work behavior that has led to the company's growth and success. With our skilled and well-trained personnel and our genuine commitment to provide exceptional quality services, TELMEN continues its constant steady growth with firm steps to meet every client's expectations paying special attention to health, safety and environmental commitments.

COSTAS YIANNAKIS
Technical Director

COMPANY PROFILE

TELMEN LTD was established in late 1987 and was registered in February 1988, as a Mechanical and Electrical Contracting Company.

Over the years, it has become one of the leading Electrical Works in the construction industry. It has completed many large Mechanical and Electrical Lump Sum projects and Maintenance Projects throughout Cyprus and abroad.

With over 20 experienced Engineers and excellent well-trained technical and office staff and using the best quality management systems TELMEN LTD can meet every client's expectations.

ISO 9001

by IQNET
Cyprus Certification Company

OUR VISION & VALUES

The primary principles and fundamentals upon which Telmen Ltd market dominant position and goodwill were founded on are:

RESPONSE

Uninterrupted, consistent and immediate response to client request/requirement.

DESIGN & IMPLEMENTATION

The design and implementation of high quality engineering services and after sales/commissioning support.

HEALTH & SAFETY

The strict adherence to site Health & Safety rules and regulations.

UPGRADE

The continuous upgrade/modernization of machinery and equipment, readily available at project sites.

TRAINING

Consistent and continuous personnel training and development.

SERVICES PROVIDED

Electrical

- LV and MV (11-33kV) Power Distribution and switchgears
- Support for HV (132kV) substations erection
- Lighting and Small Power Systems
- Power Generators
- Uninterruptible Power Supply Systems
- Earthing and Lightning protection Systems
- Fire Alarm, Access Control, CCTV, Burglar alarm systems and complete integration
- Public address and Audiovisual systems
- Building Automation and Management Systems
- Photovoltaic and other renewable energy generating systems
- Data Centers

Mechanical

- Sewerage Treatment Works
- Sewer and Pressure Pipe Network Systems
- Heating, Ventilating and Air Conditioning
- Drainage Installations
- Hot & Cold Water Installations
- Fire Fighting Installations
- Rain Water Installations
- Compressed Air Installations
- L.P.G. Installations
- Medical Gases Installations
- Steel Works

Theatrical

- Stage engineering
- Stage lighting
- Audio-visual systems

AREAS OF ACTIVITY

Our expertise includes successful project completions within the public, private & military Sectors.

Residential

- Apartment Buildings
- University Dormitories
- Nursing Homes

Commercial

- Office Buildings
- Shopping Malls
- Retail Outlets
- Hotel & Resorts
- Casinos
- Marinas

Industrial

- Manufacturing Plants
- Warehouses
- Distribution Centres
- Industrial Flex-Space

Institutional & Public

- Schools & Universities
- Museums & Libraries
- Theatres
- Hospitals
- Sports Centres
- Churches

Infrastructure & More

- Data Centers
- Power Plants
- Desalination Plants
- Public transport Infrastructure
- Military Facilities
- Photovoltaic Parks

FEATURED PROJECTS

SCHOOL OF ECONOMICS & MANAGEMENT, UNIVERSITY OF CYPRUS

2006 - 2010

Nicosia, Cyprus

Project Type: Institutional & Public

Status: Completed

Electrical Works

Main Panels & Switchgears • Small Power • Lighting • Earthing • Lightning Protection System • Provisions for Security Systems • Other

Mechanical Works

Air-conditioning: ducts, pipework, fan coil units, VAV units, infrastructure pre-insulated piping, central plantrooms, other associated equipment • Soil, waste, vent drainage & storm services • Hot and cold-water services • Fire fighting • Electrical installations for mechanical works • Automatic controls & BMS system

"STELIOS IOANNOU" LEARNING RESOURCE CENTRE, UNIVERSITY OF CYPRUS

2012 - 2018

Nicosia, Cyprus

Project Type: Institutional & Public

Status: Completed

Electrical Works

Main Panels & Switchgears • Small Power & Lighting • Earthing system • Lightning protection System • EIB-Bus System • Central Battery Emergency Lighting System • 2No Generating Sets 600KVA • 2Nos Uninterruptible Power Supply Equipment (UPS) 120KVA Structured Cabling • Master Clock System & Disable Alarm System • Provisions for Security Systems • Other

Mechanical Works

Installation of A/C water piping for AHUs, VAVs & Fan Coil Units • Installation of AHUs Fan Coil Units • VAVs • Installation of Building Hot & Cold Water Services • Installation of A/C Associated Ductwork C/W Fire Dampers • Control Dampers & Silencers • Installation of Mist Fire Protection System • Removal & Re-Installation of Pre-Insulated A/C Piping • Rain Water Pumping Stations Installation • Installation of all Electrical Work associated with Mechanical EQP • Installation of Exhaust Fans • Installation of BMS, Close Control Units • VRV Systems • Testing & Commissioning

NEW CAMPUS HALLS, UNIVERSITY OF CYPRUS

2000 - 2003

Nicosia, Cyprus

Project Type: Institutional & Public

Status: Completed

ELECTRICAL

Electrical Works

Main Panels & Switchgears • Power Busbars • L.V. Panels and Distribution Boards • Small Power and Lighting • Structure Cabling • EIB Lighting Control System • Structure Cabling • Earthing and Lightning Protection systems • Power Generating Sets • Provisions for Security and Other ELV Systems • Testing and Commissioning

FACULTY OF ENGINEERING, UNIVERSITY OF CYPRUS

2016 - 2021

Nicosia, Cyprus

Project Type: Institutional & Public

Status: In Progress

MECHANICAL

ELECTRICAL

Electrical Works

Main Panels & Switchgears • Small Power & Lighting • Earthing • Lightning Protection systems • EIB-Bus System • Provisions for Security Systems and Other

Mechanical Works

Installation of A/C water piping for AHUs • VAVs & Fan Coil Units • Installation of AHUs Fan Coil Units • VAVs • Installation of Building Hot & Cold Water Services • Installation of A/C Associated Ductwork C/W Fire Dampers • Control Dampers & Silencers • Installation of Mist Fire Protection System • Removal & Re-Installation of Pre-Insulated A/C Piping • Rain Water Pumping Stations Installation • Installation of All Electrical Work associated with Mechanical EQP • Installation of Exhaust Fans • Installation of BMS • Close Control Units • VRV Systems • Testing & Commissioning

TIFFANY SHOPPING MALL

2008 - 2010

Limassol, Cyprus

Project Type: Commercial

Status: Completed

Electrical Works

Main Panels & Switchgears • L.V. Panels and Distribution Boards • Small Power & Lighting • Earthing and Lightning Protection System • CCTV System • EI-Bus System • Security System • Fire Alarm System • Sound System • Structure Cabling • Access Control System • Testing & Commissioning

Mechanical Works

Heating, Ventilation and Air Conditioning • Fire Fighting System • Building Management System (BMS) • Fire Suspension System • Ventilation & Exhaust Fans • Domestic Water Supply System • Cold & Hot Water Supply System

MECHANICAL

ELECTRICAL

SOCIAL FACILITIES, UNIVERSITY OF CYPRUS

2008 - 2011

Nicosia, Cyprus

Project Type: Commercial

Status: Completed

Electrical Works

Main Panels & Switchgears • Small Power & Lighting • Earthing • Lightning Protection System • EI-B-Bus System • Enabling works for Security & Other ELV Systems

ELECTRICAL

SKYTOWER

2018 - 2021

Limassol, Cyprus

Project Type: Residential

Status: In Progress

MECHANICAL

ELECTRICAL

Electrical Works

Switchgears & D/Boards • Main Bus Bars Distribution System • Small Power and Lighting • Structure Cabling system • Active Equipment • MATV System • Video Entry Intercom System • Commons & Penthouses Lighting Automation System • IP Access Control System • CCTV System • Fire Detection System • Lightning Protection & Earthing System • Provision of Sound System • Aviation Obstruction Lights

Mechanical Works

Heating, Ventilation & Air Conditioning (HVAC) Systems (VRV's, Split Type Heat Pump Units, DeHumidifier, Heat Recovery Unit's (HRV), Exhaust Fans, Air Terminals all with associated Ductwork, Pipework & Controls) • Underfloor Heating Systems with Heat Pump Units with associated pipework & controls • Installation of Fire Fighting Systems (Fire Dampers, Sprinklers, Fire Hose Reels, Fire Fighting Booster Sets, Wet Riser System, GRP Wet Riser Water Tank all with associated pipework & controls • Plumbing Systems (Hot-Cold-Fresh Water Supply Systems, Drainage-Sewage-Rain Water Systems, Hot Water Heat Pump Cylinders, Water Tanks, Pressurization (Booster) Units, Circulator Pumps All with associated pipework & controls

DELMAR

2008 - 2021

Limassol, Cyprus

Project Type: Residential (Mixed-Use)

Status: In Progress

ELECTRICAL

Electrical Works

Main Panels and Switchgears • Main Bus Bars Distribution System • Small Power & Lighting • Earthing System • Lightning Protection System • Generator Sets • Security systems • Home Automation System

“SPIROS KIPRIANOU” CLOSED ATHLETIC CENTRE

2007 - 2021

Limassol, Cyprus

Project Type: Sports Centre

Status: Completed

Mechanical Works

AHUs, VAVs, Fan Coil Units & Associated water piping • VAVs, Building Hot & Cold Water Services • A/C Associated Ductwork C/W Fire Dampers, Control Dampers and Silencers • Mist Fire Protection System • Rain Water Pumping Stations • Exhaust Fans • BMS • Close Control Units, VRV Systems • Electrical Works associated with Mechanical EQP • Testing and Commissioning

“APOTHIKES SIKOPETRITI”, TECHNOLOGICAL UNIVERSITY OF CYPRUS

2010 - 2011

Nicosia, Cyprus

Project Type: Workshops

Status: Completed

Mechanical Works

Solar Cooling System • Air-conditioning: AC ducts, AC pipework, fan coil units, VAV units, infrastructure, Pre-insulated piping, central plantrooms, cooling tower, absorption chillers, solar, vacuum tubes • Soil, waste, vent drainage & storm services • Hot & Cold-Water Services • Fire-fighting • Electrical installations for mechanical works • Compressed air & vacuum • Automatic controls & BMS system

T.H.O.C. (THEATRICAL ORGANIZATION OF CYPRUS) THEATER

2010 - 2013

Nicosia, Cyprus

Project Type: Theater

Status: Completed

Electrical Works

Small Power & Lighting Installation • L.V. Panels and Distribution Boards • Main Feeder Power Supplies • Earthing and Lightning Systems • Installation of Lighting Fittings • CCTV System • EI-Bus System • Security System • Fire Alarm System • Structured Cabling, Access Control System • Testing & Commissioning

ELECTRICAL

PATTICHEIO THEATER

2014 - 2016

Limassol, Cyprus

Project Type: Theater

Status: Completed

Electrical Works

Small Power and lighting installation • Main Panel & Distribution Boards • Earthing System • Supply & Installation of lighting fittings • Structure Cabling • Sound System • Fire Alarm System • EIB System • Generator Set • Power Factor Correction Unit • Testing & Commissioning

ELECTRICAL

CYTA (CYPRUS TELECOMMUNICATION AUTHORITY), PLATY BUILDING

2006 - 2009

Nicosia, Cyprus

Project Type: Office Building

Status: Completed

MECHANICAL

Mechanical Works

Close Control Units • VRV Systems, Split Units • Heat Recovery Units & Associated Ductwork & Air Terminals • Exhaust Air Fans & Associated Ductwork • Testing & Commissioning

“SPITI TOU POLITI”, CYPRUS PARLIAMENT

2018 - 2019

Nicosia, Cyprus

Project Type: Office Building

Status: Completed

Electrical Works

Main Panel & switchgears • Small power & lighting • Lightning protection • Security systems • Home Automation System

Mechanical Works

VRV Systems for A/C with Heat Recovery Units • Fire Fighting System with FHR • Hot & Cold Water Services • Drainage Soil & Waste Services

MECHANICAL

ELECTRICAL

AFRODITE HILLS RESORT:

- ALEXANDER HEIGHTS VILLAS
- AENEAS GRAND VILLAS
- GOLF CLUBHOUSE
- OURANOS VILLAS

2016 - 2020

Paphos, Cyprus

Project Type: Hotels & Resorts

Status: Completed

MECHANICAL

Mechanical Works

Heating, Ventilation & Air Conditioning (HVAC) Systems (VRV & split unit systems) • Underfloor Heating Systems with Heat Pump Units with associated pipework & controls • Ventilation systems (HRUs & Fans) • Plumbing Systems with associated pipework & controls • Sewage & Rainwater systems • Vacuum Systems • Mains Potable & Irrigation Systems

THE ROYAL APOLLONIA BEACH RESORT (TOTAL REFURBISHMENT)

2013

Limassol, Cyprus

Project Type: Hotels & Resorts

Status: Completed

MECHANICAL

Mechanical Works

Installation of chillers, FCUs, boilers, calorifiers, exhaust fans, pumps & split units • Installation of A/C & heating water piping • Installation of A/C associated ductwork with dampers, grilles & accessories • Installation of fire hose reels • Installation of drainage & cold water services, sanitary ware with all necessary accessories • Irrigation works • Installation of HVAC controls complete with all mechanical control panels • Testing & Commissioning

COLUMBIA BEACH RESORT

2001 - 2003

Pissouri, Cyprus

Project Type: Hotels & Resorts

Status: Completed

Mechanical Works

Main Building / Main Plantrooms / Pool Bar / Tavern / External Works:

Air Conditioning, Heating and Ventilation • Domestic Hot and Cold Water • Drainage and Rainwater System • Fire Fighting System • Sewage system • Solar System • Complete Building Management System (BMS) • Supply & Installation of absorption chiller • Testing and Commissioning

MECHANICAL

PRINCESS RADISSON HOTEL

2019 - 2021

Larnaca, Cyprus

Project Type: Hotels & Resorts

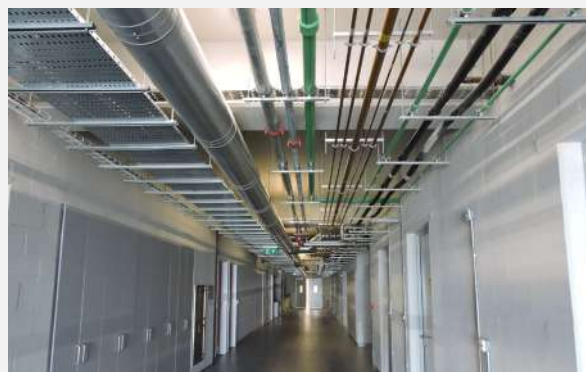

Status: In Progress

Mechanical Works

202 Hotel Rooms, Conference Area, SPA, Pools, Restaurants & Bars

Air-conditioning: air handling units, AC ducts, DX coils, VRF systems, central plantrooms, other associated equipment • Drainage systems soil, waste & rainwater services • Hot & cold-water services • Fire fighting for sprinkler system & FHRs • Electrical installations for mechanical works • Professional kitchen exhaust systems • Automatic controls & BMS system

MECHANICAL

GERMAN ONCOLOGY CENTRE (PHASE A)

2016 - 2018

Limassol, Cyprus

Project Type: Hospitals & Health Centres

Status: Completed

Mechanical Works

HVAC Systems (VRV, HRV, Split Units, Ductwork, Fans) • Sewage & Drainage Systems • Rain Water System • Fire Fighting System • Water System • Testing & Commissioning

MECHANICAL

YGEIA POLYCLINIC LIMASSOL (RENOVATIONS & EXPANSIONS)

2016 - 2018

Limassol, Cyprus

Project Type: Hospitals & Health Centres

Status: Completed

Mechanical & Electrical Works

Electrical & Mechanical works involving HVAC (A/C, Ventilation, Grilles, Chillers), Plumbing (Water, Drainage, Pumps), Power Supply, Communications, BMS, Controls, Medical Gases with associated, pipework, ductwork, cables, distribution boards for the following:

- Installation of new MRI Unit with associated Rooms (plant rooms & control rooms).
- Renovation of existing MRI Unit & associated Rooms (plant rooms & control rooms).
- Renovation for 1st Aid & Intensive Care Rooms facilities.
- Renovation of Optical Eye Care Department.
- Renovation of Endoscopy Department.
- Renovation of HVAC for Operating Rooms.
- Server Rooms M&E – HVAC, Power & Control systems.
- Various M&E Projects within the Polyclinic Facilities.

ELECTRICAL

**OREITES WIND FARM
(33/132kV SUBSTATION
ERECTION & OTHER
ELECTRICAL SERVICES -
SIEMENS SUBCONTRACTOR)**

2009 - 2010

Paphos, Cyprus

Project Type: Infrastructure - Power Substations

Status: Completed

ELECTRICAL

Electrical Works

MV (33kV) Switchgears Installation • MV (33kV) Power Cables Laying and Termination • Erection of 132kV Switchyard 132kV substation Main 2MVA 132/33kV Transformer & associated equipment • Erection of Main 132/33kV Transformer and Associated equipment • Earthing system • Small power, Lighting & Security Systems for Substation & Control rooms

**EAC'S 132kV GIS
SUBSTATIONS ERECTION
(SIEMENS SUBCONTRACTOR)**

1995 - 2009

Nicosia - Limassol - Larnaca - Paphos, Cyprus

Project Type: Infrastructure - Power Substations

Status: Completed

ELECTRICAL

Electrical Works

Transport on site and Installation of:

- 132KV GIS Cable Feeder Bays
- 132KV GIS Transformer Bays
- 132KV GIS Bus Section Bay
- 11KV Switchboard comprising:
Transformer Incoming, Bus Section, Standard Feeder, Feeder for Capacitor Bank and Switchgear. 132/11KV Power Transformers, 11/0.415KV Earthing Transformers, SCADA System
- Sub-Stations Fire Protection System Installation
- Testing and Commissioning for all works up to 11KV. Assistance to SIEMENS AG for Testing and Commissioning of the 132KV works

ELECTRICAL SERVICES (LV & MV) FOR LARGE SCALE PV PARKS

2017 - Ongoing

Nicosia - Limassol - Larnaca - Paphos, Cyprus

Project Type: Infrastructure - PV systems

Status: Many Completed - Others In Progress

Electrical Works

- MV (11-22kV) cables laying, termination and testing
- MV (11-22kV) switchgears, supply, installation and commissioning
- LV power cables Installation and Termination
- Supply and installation of main LV Panels
- PV park testing and commissioning with EAC

ELECTRICAL

PHOTOVOLTAIC SYSTEMS AT UNIVERSITY OF CYPRUS CAMPUS (TOTAL 394kW)

2013 - 2015

Nicosia, Cyprus

Project Type: Infrastructure - PV systems

Status: Completed

Mechanical Works

Supply, installation, testing and commissioning of:

- PV panels mounting system
- PV panels
- DC installation
- AC installation
- Testing and commissioning
- Maintenance

ELECTRICAL

VTT VASSILICO OIL TERMINAL

2012 - 2014

Larnaca, Cyprus

Project Type: Infrastructure

Status: Completed

Electrical & Mechanical Works

MV (up to 11kV) Installation (on shore and off shore) • LV Installation (on shore and off shore) • Electrical Installation of Administration, Customs and other Auxiliary Buildings • Fire Fighting System Installation • Access control system Installation & maintenance • Fire Alarm system Installation & maintenance • CCTV system maintenance • Corrective & expansion works including ATTEX equipment installation • Maintenance services for electrical installation including ATTEX equipment

MECHANICAL & ELECTRICAL MAINTENANCE & OTHER SPECIAL SERVICES

Electrical Works

MV Distribution Systems • LV Power Installations • Lighting installations, including emergency lighting, Street lighting & Aviation Ground Lighting • UPS systems • Generating Sets • BMS & Telemetry systems • Home Automation Systems • Security Systems • Lightning protection Systems • Earthing installations & Cathodic Protection Systems • Electrical installations in areas classified as "Hazardous Areas" • Communication Systems • Audio-visual Systems

Mechanical Works

Air conditioning & refrigeration systems • Boiler plants & central heating installations • Petroleum storage & distribution installations (PSD & BFIs network system) • Liquefied Petroleum Gas (LPG) bulk storage & distribution installations • Ventilation systems • Compressed air systems • Water distribution installations • Reverse Osmosis plants • Sewage treatment plants • Hot & cold water systems, including main water storage tanks • Medical gases • Petroleum installations (POL) • Liquefied Petroleum Gas (LPG) installations • Catering Equipment • Specialist cleaning of ductwork & water tanks • Solar energy
